

CLEANCARE

IODINE-RESISTANT TECHNOLOGY

ABOUT CLEANCARE

A new generation of surface treatment for the floor coverings of the future

An exclusive Globalflor coating with resistance and performance obtained by UV curing technology. It strengthens the chemical resistance performance of flooring, especially iodine and its relevant solution which are frequently used in hospital. The test in lab shown iodine solution could be easily wipe off.

THE BEST CHEMICAL&STAIN RESISTANCE SURFACE TREATMENT

Dual reinforcement: The surface treatment material spray two times before UV curing, ensures a thicker and harder surface than competitors.

Excellent anti-scratch performance.

Highly durable: Exclusive surface treatment provides superior durability and an even surface thickness, creating an impenetrable barrier against stains and chemicals found healthcare.

Life expectancy of over 15 years.

GLOBALFLOR
DUAL AND EVEN THICKNESS

COMPETITOR
MISSING TREATMENT
AND UNEVEN THICKNESS

Fully non-porous surface: The surface treatment creates a 100% non-porous barrier to all liquids and chemicals, keeping all stains floating on the surface, similar with lotus effect.

Simple and easy stain removal.

GLOBALFLOR
STAIN FLOATING ON SURFACE

STAIN OBSORbing INTO FLOOR

IODINE SOLUTION COMPARASION TEST IN LAB

The **iodine** solution will not affect the flooring surface in **3mins**. And the **iodophor** solution will not affect the flooring surface in **15mins**. It all because of Globalflor CLEANCARE technology.

The iodine solution already leaves irremovable trace on the flooring surface in several minutes, no matter clean with water or detergent. It is the sample from competitor.

USER BENEFITS

Easy to clean, saves water and detergent.

Easy stain removal.

Resistance to heavy traffic and micro-scratches.

Durable design and lasting color brightness.
