# PICKLEBALL SPORTS

---

Pickleball is a paddle sport that combines elements of tennis, badminton, and table tennis, played on a badminton-sized court with a slightly modified tennis net. Players use solid paddles to hit a perforated plastic ball over the net. It can be played as singles or doubles.

## Court

Pickleball is played on a badminton-sized court, which is smaller than a tennis court.

## Net

The net is similar to a tennis net but is slightly shorter.

## Paddles

Players use solid paddles, often made of composite materials or wood, that are larger than ping-pong paddles but smaller than tennis or badminton rackets.

## Ball

The ball is a lightweight plastic ball with holes, similar to a wiffle ball.

## Scoring

Only the serving team can score points. Games are typically played to 11 points, and must be won by two points.

## Rules

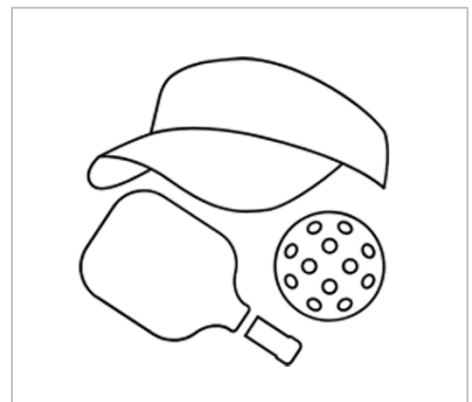

The game involves serving, volleying, and rallying, with unique rules such as the "non-volley zone" (also known as the kitchen) near the net, where players cannot volley the ball.

## Accessibility

It is known for its accessibility, with a relatively simple set of rules that makes it easy for beginners to pick up.

## Popularity

It has gained significant popularity due to its social and fun nature, as well as its suitability for people of all ages and skill levels.

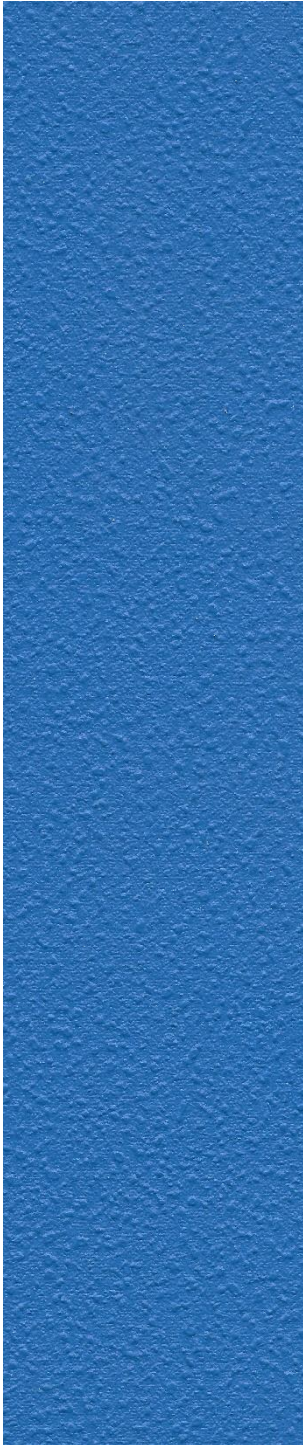

## AVAIABLE COLORS

If need to customize other colors, please contact our sales for more details.

DATA SHEET

**STRUCTURE**

0.4mm Speicl ant-slip sand emboss wear layer

1.1mm stable layer

1.3mm micro-foaming layer

 1.8M roll width, 15M roll length

No.	Item	Standard	Requirement	Result
1	Ball rebound rate	GB/T 14833-2020	≥75%	93%
2	Shock absorption		20-50%	21.8%
3	Friction coefficient		0.4-0.7	0.5
4	Tensile strength		≥0.4MPa	2.2MPa
5	Elongation at break		≥40%	96%
6	Tearing strength		≥5KN/M	10KN/M
7	Fire rating		I	I
8	Anti slip (20°C) (BPN)		80-110 (dry)	87
9	TVOC(mg/ (m <sup>2</sup> .h) )		≤5.0	2.2
10	Formaldehyde		≤0.4	0.1
11	benzene		≤0.1	ND
12	Toluene, xylene and ethylbenzene		≤1.0	ND
13	Carbon disulfide		≤7.0	ND

## ADVANTAGES

The whole flooring body is Anti-UV and anti-oxidation treated. It is not easy to fade even under the high temperature and intense sunlight outdoors, suitable for hot and wet Southeast-Asia countries.

The semi-dense foamed base layer not only offers a better shock absorption rate than other products but also provides a more comfortable foot feeling.

Specially designed Pro-sand texture has a multi-directional anti-slip effect.

Special anti-mold backing-seal layer.
