ABOUT TIME

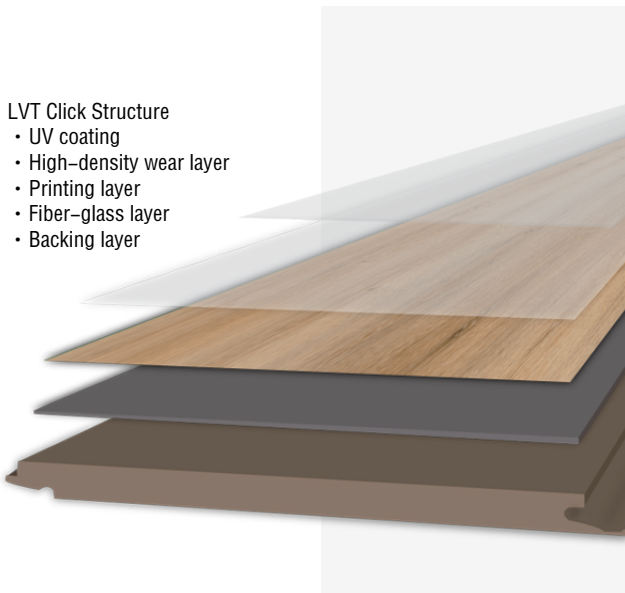

Globalflor Time Series is an innovative form of vinyl flooring. It is becoming an increasingly popular and affordable alternative to wood or stone. The realistic look of either wood, stone or ceramictile is extremely hard wearing and resilient to daily wear and tear. It has a scratch resistant surface and waterproof making it ideal for any area.

The product is made up of multiple thin layers so that the flooring is still flexible but very durable and easy to look after. Click system ensures fast and simple installation.

- 30 colors include both wood and cement
- Available in LVT, LVT Click and SPC types, suitable for different installation method such as glue down or click system
- DOTP plasticizer, for health and safety
- Extremely low TVOC emission ensuring great indoor air quality
- Optional EIR

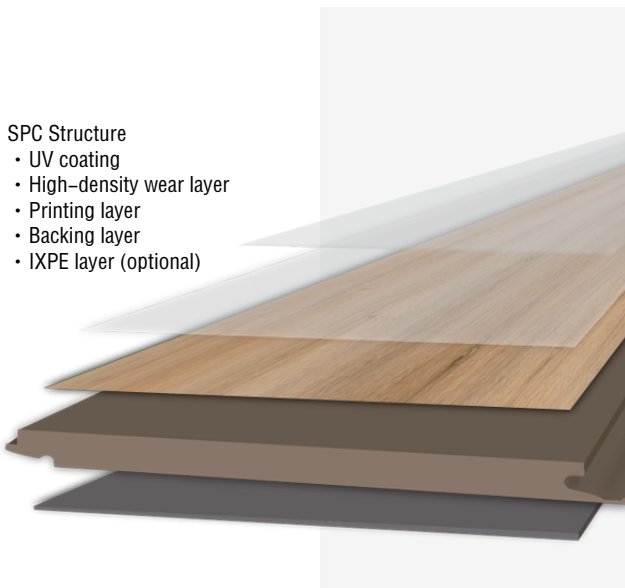

LVT Click Structure

- UV coating
- High-density wear layer
- Printing layer
- Fiber-glass layer
- Backing layer

SPC Structure

- UV coating
- High-density wear layer
- Printing layer
- Backing layer
- IXPE layer (optional)

GLOBALFLOR®, owned by Shanghai Bomei Industrial Corporation Ltd. We are specializing in the production of vinyl flooring materials include homogeneous, heterogeneous, ESD, sports and different type of vinyl tiles. They have been widely used in commercial and industrial areas such as Airport, Metro Station, School, Hospital, Shopping Mall, Office, Apartment, Sports Field, Electronics Factory and so on.

Products of high quality and fashionable, widely used in a variety of architecture. Our advanced machineries were imported from German and Japan. At the same time, over 500 legal staffs insist on providing dedicated international standard support with assistance on logistics, dedicated packaging and quality control for global customers. Till now, our monthly capacity can achieve 6,000,000 square meters.

We are committed to customer health protection and sustainable development. Proactive in seeking alternatives to phthalates as they have been the subject of scientific debate about their potential impact on human health, we adopt a phthalate free plasticizer technology for our vinyl flooring.
